Российский морской регистр судоходства  
**Регистровая книга судов, 2015**  
Register of Ships, 2015

The edition is prepared  
by Russian Maritime Register of Shipping

© Российский морской регистр судоходства, 2015

ISBN 978-5-89331-188-4

The Register of Ships is published biannually and contains the information on sea-going self-propelled ships of 100 and above gross tonnage classed by Russian Maritime Register of Shipping.

This edition contains the information on the shipowners the names of which are recorded in Column 1 of the Register of Ships.

The publication of the Register of Ships is accompanied by its electronic version. The electronic version of the Register of Ships also includes all the

amendments taking place after the publication of the Register of Ships.

The electronic version of the Register of Ships is available at the Russian Maritime Register of Shipping web site (<http://www.rs-class.org>), "Register of Ships".

The information published in the Register of Ships has been obtained from sources believed to be reliable. However, Russian Maritime Register of Shipping is unable to guarantee the accuracy of all details.

## Symbols and Abbreviations Used in the Register of Ships

(sorted by Latin and then by Cyrillic)

For fuller explanation, see the Key to the Register of Ships.

<b>A</b>	Design category mark for pleasure crafts	<b>CAT3</b>	Chain of special strength
<b>A1</b>	Design category mark for pleasure crafts	<b>CCO</b>	Distinguishing mark for ships fitted with a centralized cargo control system
<b>A2</b>	Design category mark for pleasure crafts	<b>ch</b>	Cargo hatches
<b>ACV</b>	Air-cushion vehicle	<b>chc</b>	Oil cargo heating coils
<b>AIS</b>	Automatic identification system	<b>CO</b>	Composite
<b>ANTI-ICE</b>	Distinguishing mark for ships fitted with equipment for icing protection	<b>CONTAINERS</b>	Distinguishing mark of the refrigerating plant
<b>AP</b>	Autopilot	<b>COW</b>	Distinguishing mark for ships fitted with a crude oil washing system
<b>APR</b>	Air propeller	<b>CPP</b>	Controllable pitch propeller
<b>Arc4</b>	see <b>ЛУ4</b>	<b>CSR</b>	Distinguishing mark for oil tankers and for bulk carriers added to the character of classification
<b>Arc5</b>	see <b>ЛУ5</b>	<b>d</b>	Derrick
<b>Arc6</b>	see <b>ЛУ6</b>	<b>D</b>	Design category mark for pleasure crafts
<b>Arc7</b>	see <b>ЛУ7</b>	<b>DF</b>	Direction finder
<b>Arc8</b>	see <b>ЛУ8</b>	<b>dk</b>	Decks
<b>Arc9</b>	see <b>ЛУ9</b>	<b>DPRR</b>	HF direct-printing radiotelegraph receiver
<b>ARPA</b>	Automatic radar plotting aids	<b>DRTM</b>	MF radio installation with digital selective calling
<b>ATWRT</b>	Two-way VHF radiotelephone apparatus for communication with aircraft	<b>DRTMH</b>	MF/HF radio installation with digital selective calling
<b>AUT</b>	Distinguishing automation mark for pleasure crafts	<b>DRTV</b>	VHF radiotelephone station with digital selective calling
<b>AUT1</b>	Distinguishing automation mark	<b>DWR</b>	Digital selective calling receiver
<b>AUT2</b>	Distinguishing automation mark	<b>DYNPOS-1</b>	Distinguishing mark for ships fitted with Class 1 dynamic positioning system
<b>AUT3</b>	Distinguishing automation mark	<b>DYNPOS-2</b>	Distinguishing mark for ships fitted with Class 1 dynamic positioning system
<b>AUT1-ICS</b>	Distinguishing automation mark	<b>DYNPOS-3</b>	Distinguishing mark for ships fitted with Class 1 dynamic positioning system
<b>AUT2-ICS</b>	Distinguishing automation mark	<b>ECDIS</b>	Electronic chart display and navigational system
<b>AUT3-ICS</b>	Distinguishing automation mark	<b>ECO</b>	Distinguishing mark of ecological safety
<b>AUT1-C</b>	Distinguishing automation mark	<b>ECO-S</b>	Distinguishing mark of ecological safety
<b>AUT2-C</b>	Distinguishing automation mark	<b>EGCR</b>	Enhanced group calling receiver
<b>AUT3-C</b>	Distinguishing automation mark	<b>el</b>	Equipment Number
<b>AUTstab</b>	Automatic stabilization mark of the high-speed craft	<b>EPIRB</b>	Satellite emergency position-indicating radio beacon (EPIRB) for Global Maritime Distress and Safety System (GMDSS)
<b>b</b>	Berthed	<b>EPIRBV</b>	VHF emergency position-indicating radio beacon with digital selective calling
<b>BC-A</b>	Distinguishing mark of the bulk carrier	<b>EPP</b>	Distinguishing mark for ships fitted with the main electric propulsion plant
<b>BC-B</b>	Distinguishing mark of the bulk carrier	<b>ESD</b>	Echo sounder
<b>BC-C</b>	Distinguishing mark of the bulk carrier	<b>(ESP)</b>	Distinguishing mark of enhanced survey program
<b>Berth-connected ship</b>	Distinguishing mark for berth-connected ships	<b>FF1</b>	Distinguishing mark for ships carrying equipment for fire fighting aboard other ships, offshore drilling units, floating and shore structures
<b>bh</b>	Bulkheads	<b>FF1WS</b>	Distinguishing mark for ships carrying equipment for fire fighting aboard other ships, offshore drilling units, floating and shore structures
<b>bhc</b>	Water ballast heating coils	<b>FF2</b>	Distinguishing mark for ships carrying equipment for fire fighting aboard other ships, offshore drilling units, floating and shore structures
<b>bl</b>	Blades	<b>FF2WS</b>	Distinguishing mark for ships carrying equipment for fire fighting aboard other ships, offshore drilling units, floating and shore structures
<b>BLS</b>	Distinguishing mark for ships to carry out cargo operations at offshore terminals	<b>FF3WS</b>	Distinguishing mark for ships carrying equipment for fire fighting aboard other ships, offshore drilling units, floating and shore structures
<b>BLS-SPM</b>	Distinguishing mark for ships to carry out cargo operations at offshore terminals	<b>fhc</b>	Fuel oil heating coils
<b>BNWAS</b>	Bridge navigational watch alarm system	<b>FPP</b>	Fixed pitch propeller
<b>bo</b>	Fuel oil-water ballast tanks with regard to substitution of water ballast by fuel oil	<b>FT</b>	Fire tube
<b>BWM</b>	Distinguishing mark for ships complying with ballast water management requirements	<b>GC</b>	Gyrocompass
<b>BWM (E-S)</b>	Distinguishing mark for ships complying with ballast water management requirements	<b>GC</b>	Gas carried (refrigerant)
<b>BWM (E-F)</b>	Distinguishing mark for ships complying with ballast water management requirements	<b>gen</b>	Electric power plant generator
<b>BWM (E-D)</b>	Distinguishing mark for ships complying with ballast water management requirements	<b>GSES</b>	GMDSS ship earth station
<b>BWM (E-SF)</b>	Distinguishing mark for ships complying with ballast water management requirements	<b>h</b>	Dry cargo holds
<b>BWM (E-SD)</b>	Distinguishing mark for ships complying with ballast water management requirements	<b>HSC</b>	High-speed craft
<b>BWM (E-FD)</b>	Distinguishing mark for ships complying with ballast water management requirements	<b>HELIDECK</b>	Distinguishing mark for ships fitted with helicopter facilities
<b>BWM (E-SFD)</b>	Distinguishing mark for ships complying with ballast water management requirements	<b>HELIDECK-F</b>	Distinguishing mark for ships fitted with helicopter facilities
<b>c</b>	Crane	<b>HELIDECK-H</b>	Distinguishing mark for ships fitted with helicopter facilities
<b>C</b>	Design category mark for pleasure crafts	<b>Ice ()</b>	Ice category mark for pleasure crafts
<b>C1</b>	Design category mark for pleasure crafts	<b>Ice1</b>	Ice category mark of the ship
<b>C2</b>	Design category mark for pleasure crafts	<b>Ice2</b>	Ice category mark of the ship
<b>C3</b>	Design category mark for pleasure crafts	<b>Ice3</b>	Ice category mark of the ship
<b>CA</b>	see <b>Г</b>	<b>Icebreaker6</b>	Icebreaker category mark
<b>CAT1</b>	Chain of ordinary strength	<b>Icebreaker7</b>	Icebreaker category mark
<b>CAT2</b>	Chain of high strength	<b>Icebreaker8</b>	Icebreaker category mark
		<b>Icebreaker9</b>	Icebreaker category mark

<b>IGS-IG</b>	Distinguishing mark for ships fitted with an inert gas system	<b>R717</b>	Ammonia
<b>IGS-NG</b>	Distinguishing mark for ships fitted with an inert gas system	<b>R290</b>	Propane
<b>IGS-Pad</b>	Distinguishing mark for ships fitted with an inert gas system	<b>R1270</b>	Propylene
<b>INF1</b>	Distinguishing mark for ships intended for carriage of packaged irradiated nuclear fuel, plutonium and high-level radioactive wastes (INF cargo)	<b>R134A</b>	Freon
<b>INF2</b>	Distinguishing mark for ships intended for carriage of packaged irradiated nuclear fuel, plutonium and high-level radioactive wastes (INF cargo)	<b>R507A</b>	Freon
<b>INF3</b>	Distinguishing mark for ships intended for carriage of packaged irradiated nuclear fuel, plutonium and high-level radioactive wastes (INF cargo)	<b>R434</b>	Freon
<b>KM★</b>	Character of classification of the ship	<b>rcs</b>	Refrigerated cargo spaces
<b>KM★</b>	Character of classification of the ship	<b>RDR</b>	Radar
<b>KM★</b>	Character of classification of the ship	<b>REF</b>	Distinguishing mark for ships intended for carriage of refrigerated cargo
<b>(KM)★</b>	Character of classification of the ship	<b>REF★</b>	Character of classification of the refrigerating plant
<b>L1</b>	Ice category mark of the ship	<b>REF★</b>	Character of classification of the refrigerating plant
<b>L2</b>	Ice category mark of the ship	<b>(REF)★</b>	Character of classification of the refrigerating plant
<b>L3</b>	Ice category mark of the ship	<b>RNSR</b>	Radio navigation system receiver
<b>L4</b>	Ice category mark of the ship	<b>RTG</b>	Radiotelegraph station
<b>LG</b>	Distinguishing mark of the refrigerating plant	<b>RTGPH</b>	Radiotelegraph-telephone station
<b>LI</b>	Distinguishing mark for ships fitted with a loading instrument	<b>RTI</b>	Rate of turn indicator
<b>LL1</b>	Icebreaker category mark	<b>RTPH</b>	Radiotelephone station
<b>LL2</b>	Icebreaker category mark	<b>RTR</b>	Rotor
<b>LL3</b>	Icebreaker category mark	<b>RTU</b>	UHF radiotelephone station
<b>LL4</b>	Icebreaker category mark	<b>RTV</b>	VHF radiotelephone station
<b>LOG</b>	Log (any type)	<b>SART</b>	Radar transponder
<b>LRIT</b>	Equipment of long-range identification and tracking of ships	<b>SCRT</b>	Radio station for survival craft
<b>MC</b>	Magnetic compass	<b>SCS</b>	Satellite communication system
<b>MHC</b>	Multi-hull craft	<b>SDS &lt; 12</b>	Distinguishing mark for ships fitted with a diving system permanently installed on the ship
<b>MS</b>	Distinguishing mark for ships fitted with a manned submersible	<b>SDS &lt; 60</b>	Distinguishing mark for ships fitted with a diving system permanently installed on the ship
<b>MtA</b>	MMASS type AZIPOD	<b>SDS ≥ 60</b>	Distinguishing mark for ships fitted with a diving system permanently installed on the ship
<b>NAV</b>	NAVTEX receiver	<b>so</b>	Solid propeller
<b>(no MP)</b>	Distinguishing mark of the bulk carrier	<b>sp</b>	Special personnel
<b>NS</b>	Nuclear steam	<b>SPM</b>	Distinguishing mark for ships to carry out cargo operations at offshore terminals
<b>NVE</b>	Night vision equipment	<b>SPU</b>	Swinging propeller unit
<b>O</b>	Distinguishing mark for day time navigation restriction	<b>SRS</b>	Sound reception system
<b>ob</b>	Fuel oil-water ballast tanks with regard to substitution of fuel oil by water ballast	<b>SSAS</b>	Ship security alert system
<b>OMBO</b>	Distinguishing mark of one man bridge operated ship	<b>S-VDR</b>	Simplified voyage data recorder
<b>P</b>	Distinguishing mark of the refrigerating plant of the factory ship	<b>T0</b>	Distinguishing mark for seasonal navigation restriction
<b>PAS</b>	Public address system	<b>T1</b>	Distinguishing mark for seasonal navigation restriction
<b>PC1</b>	Distinguishing mark for IACS polar class ships	<b>T2</b>	Distinguishing mark for seasonal navigation restriction
<b>PC2</b>	Distinguishing mark for IACS polar class ships	<b>T3</b>	Distinguishing mark for seasonal navigation restriction
<b>PC3</b>	Distinguishing mark for IACS polar class ships	<b>TEU</b>	Twenty-foot equivalent unit
<b>PC4</b>	Distinguishing mark for IACS polar class ships	<b>THD</b>	Transmitting heading device
<b>PC5</b>	Distinguishing mark for IACS polar class ships	<b>tk</b>	Oil tanks
<b>PC6</b>	Distinguishing mark for IACS polar class ships	<b>tm</b>	Tonnage mark
<b>PC7</b>	Distinguishing mark for IACS polar class ships	<b>TWRT</b>	Two-way radiotelephone apparatus
<b>pem</b>	Main propulsion electric motor	<b>UL</b>	Ice category mark of the ship
<b>POSIMOOR</b>	Distinguishing mark for ships fitted with a position mooring system	<b>ULA</b>	Ice category mark of the ship
<b>POSIMOOR-TA</b>	Distinguishing mark for ships fitted with a position mooring system	<b>unb</b>	Unberthed
<b>PRECOOLING</b>	Distinguishing mark of the refrigerating plant	<b>VCS</b>	Distinguishing mark for ships fitted with a cargo vapour discharge system
<b>PWH</b>	Paddle wheels	<b>VDR</b>	Voyage data recorder
<b>QUICK FREEZING</b>	Distinguishing mark of the refrigerating plant	<b>VSP</b>	Voith-Schneider propeller
<b>R</b>	Insulated (container)	<b>WINTERIZATION(DAT)</b> Distinguishing mark for ship equipment to ensure long-term operation at low temperatures	
<b>r</b>	Insulated (cargo hatch)	<b>WJP</b>	Water-jet propeller
<b>R1</b>	Distinguishing mark for restricted area of navigation	<b>WT</b>	Water tube
<b>R2</b>	Distinguishing mark for restricted area of navigation	<b>①</b>	Subdivision distinguishing mark
<b>R2-RSN</b>	Distinguishing mark for restricted area of navigation	<b>②</b>	Subdivision distinguishing mark
<b>R2-RSN(4,5)</b>	Distinguishing mark for restricted area of navigation	<b>③</b>	Subdivision distinguishing mark
<b>R3</b>	Distinguishing mark for restricted area of navigation	<b>1SS</b>	Hull renovation level
<b>R3-RSN</b>	Distinguishing mark for restricted area of navigation	<b>2SS</b>	Hull renovation level
<b>R12</b>	Freon 12	<b>3SS</b>	Hull renovation level
<b>R22</b>	Freon 22	<b>⊗</b>	Distinguishing mark of the nuclear ship
<b>R22+R115</b>	Azeotropic mixture		Distinguishing mark of the nuclear support vessel
<b>R404A</b>	Freon		
<b>R502</b>	Azeotropic mixture		

# Key to the Register of Ships

The information in each column of the Register of Ships is strictly positioned on the lines. The blank space means no information is recorded.

## Column 1. Ship

### RS Number

The unique six digit identification number assigned to the ship by the Russian Maritime Register of Shipping. The number remains unchanged during the life of the ship.

### IMO Number

The International Maritime Organization (IMO) identification number.

### Signal letters

The radio call sign assigned to the ship under the law of the country the flag of which the ship flies.

### Ship's name

The ships are listed in the Register of Ships as follows: names in Russian alphabetical order, names beginning with Arabic numerals, Roman numerals, names in Latin alphabetical order from "A" to "Z". In most cases, the Russian names are transliterated into Latin.

### Former name

The last former name of the ship and the year of the change of name printed in bold type.

### Owner

A physical or juridical person legally owing the ship. The information about the owner and his ships are published in this edition.

### Port of Registry

The name of the port where the ship is registered.

### Flag

An official identification symbol of the state where the ship is registered.

## Column 2. Dimensions

The dimensions in brackets refer to the second class notation shown in Column 3.

### Tonnage

Gross and net tonnages printed in bold type are determined in accordance with the provisions of the International Convention on Tonnage Measurement of Ships, 1969 and have no unit of measure.

### Main dimensions

Main dimensions of the ship in metres and fractions thereof. The overall length and extreme breadth include any permanent protrusions of the hull.

### Deadweight and Displacement

Deadweight and displacement in tons correspond to the draught of the ship when loaded to the summer loadline.

### Speed

The speed of the fully loaded ship in knots.

### Hull renovation

- |     |  |
|-----|--|
| 1SS | Technical condition of ship's hull corresponding to the condition of hull structures at the time of the first special survey, i.e. after 5-year service from the construction date, as stipulated in the normative documents of the Russian Maritime Register of Shipping.   |
| 2SS | Technical condition of ship's hull corresponding to the condition of hull structures at the time of the second special survey, i.e. after 10-year service from the construction date, as stipulated in the normative documents of the Russian Maritime Register of Shipping. |
| 3SS | Technical condition of ship's hull corresponding to the condition of hull structures at the time of the third special survey, i.e. after 15-year service from the construction date, as stipulated in the normative documents of the Russian Maritime Register of Shipping.  |

## Date (month/year) of renovation of the hull

## Column 3. Class/Navigation aids

### Ship's class

Class notation of the ship denoting that the ship fully or to a degree considered adequate by Russian Maritime Register of Shipping complies with those requirements of Russian Maritime Register of Shipping Rules which apply to her according to her functions, service conditions and class notation and that the ship is under Russian Maritime Register of Shipping supervision specified by the Rules in respect of her technical condition during the specified period with performing mandatory surveys prescribed by the Rules for this period. The class of the ship is certified by the valid Classification Certificate on board.

Where the ship is assigned the second class of Russian Maritime Register of Shipping, its notation is shown in the same Column.

The following symbols, distinguishing marks and descriptive notations are used in the class notation.

KM⊗	Character of classification assigned to the ship or the floating facility which was constructed in accordance with the Rules and under the supervision of Russian Maritime Register of Shipping.
KM★	Character of classification assigned to the ship or the floating facility which was as a whole (or its hull or machinery installation, machinery, equipment) built or manufactured in accordance with the Rules and under the supervision of a classification body recognized by Russian Maritime Register of Shipping and afterwards the ship or floating facility was classed by Russian Maritime Register of Shipping.
KM★	Character of classification assigned to the ship or the floating facility which was as a whole (or its hull or machinery installation, machinery, equipment) built or manufactured in accordance with the Rules and under the supervision of an IACS Member classification society but to which, due to specific structural features, KM★ symbol cannot be assigned during the process of transfer of class to Russian Maritime Register of Shipping.
(KM)★	Character of classification assigned to the ship or the floating facility which was as a whole (or its hull or machinery installation, machinery, equipment) built or manufactured without the supervision of a classification body recognized by Russian Maritime Register of Shipping or any other classification body and afterwards the ship or the floating facility was classed by Russian Maritime Register of Shipping.
ULA	Ice category mark of the ship (independent navigation in all areas of the World ocean in summer and autumn).
UL	Ice category mark of the ship (independent navigation in the Arctic in summer and autumn in light ice conditions and in the non-arctic freezing seas all the year round).
L1	Ice category mark of the ship (independent navigation in the Arctic in summer in broken open ice and in the non-arctic freezing seas all the year round in light ice conditions).
L2	Ice category mark of the ship (independent navigation in the non-arctic seas in small open ice).
L3	Ice category mark of the ship (independent navigation in the non-arctic seas in small open ice).
L4	Ice category mark of the ship (independent navigation in the non-arctic seas in small open ice, short period).
Ice ()	Ice category mark for pleasure crafts, in parentheses the thickness of ice cake, in cm, at which craft operation is allowed.
Ice1	Ice category mark of the ship (independent navigation in small open ice in the non-arctic seas, short period, and in compact ice up to 0,4 m thick in a navigable passage astern an icebreaker).
Ice2	Ice category mark of the ship (independent navigation in small open ice in the non-arctic seas and in compact ice up to 0,55 m thick in a navigable passage astern an icebreaker).
Ice3	Ice category mark of the ship (independent navigation in small open ice in the non-arctic seas and in compact ice up to 0,7 m thick in a navigable passage astern an icebreaker).

<b>Arc4</b>	Ice category mark of the ship (independent navigation in young open arctic ice up to 0,6 m thick in winter and spring, and up to 0,8 m thick in summer and autumn. Navigation in a navigable passage astern an icebreaker in young arctic ice up to 0,7 m thick in winter and spring, and up to 1,0 m thick in summer and autumn).	<b>Icebreaker9</b> Icebreaker category mark (intended for icebreaking operations: in the arctic seas in winter and spring with ice up to 4,0 m thick and in summer and autumn with no restrictions, and capable of forcing the way continuously running in compact ice field up to 2,5 m thick. The total shaft power is not less than 48 mW).
<b>Arc5</b>	Ice category mark of the ship (independent navigation in young open arctic ice up to 0,8 m thick in winter and spring, and up to 1,0 m thick in summer and autumn. Navigation in a navigable passage astern an icebreaker in young arctic ice up to 0,9 m thick in winter and spring, and up to 1,2 m thick in summer and autumn).	<b>PC1</b> Distinguishing mark for IACS polar class ships intended for year-round operation in all polar waters.
<b>Arc6</b>	Ice category mark of the ship (independent navigation in young open arctic ice up to 1,1 m thick in winter and spring, and up to 1,3 m thick in summer and autumn. Navigation in a navigable passage astern an icebreaker in young arctic ice up to 1,2 m thick in winter and spring, and up to 1,7 m thick in summer and autumn).	<b>PC2</b> Distinguishing mark for IACS polar class ships intended for year-round operation in moderate multi-year ice conditions.
<b>Arc7</b>	Ice category mark of the ship (independent navigation in young close arctic ice up to 1,4 m thick in winter and spring, and up to 1,7 m thick in summer and autumn with short ramming rammer of ice ridges. Navigation in a navigable passage astern an icebreaker in young arctic ice up to 2,0 m thick in winter and spring, and in biennial arctic ice up to 3,2 m thick in summer and autumn).	<b>PC3</b> Distinguishing mark for IACS polar class ships intended for year-round operation in second-year ice which may include multi-year ice inclusions.
<b>Arc8</b>	Ice category mark of the ship (independent navigation in close young and biennial arctic ice up to 2,1 m thick in winter and spring, and up to 3,1 m thick in summer and autumn. Ramming rammer of ice ridges. Navigation in a navigable passage astern an icebreaker in biennial arctic ice up to 3,4 m thick in winter and spring, and in perennial ice in summer and autumn with no restrictions).	<b>PC4</b> Distinguishing mark for IACS polar class ships intended for year-round operation in thick first-year ice which may include old ice inclusions.
<b>Arc9</b>	Ice category mark of the ship (independent navigation in close perennial arctic ice up to 3,5 m thick in winter and spring, and up to 4,0 m thick in summer and autumn. Ramming rammer of ice ridges. Short ramming rammer of the young and biennial close ice segments).	<b>PC5</b> Distinguishing mark for IACS polar class ships intended for year-round operation in medium first-year ice which may include old ice inclusions.
<b>LL1</b>	Icebreaker category mark (intended for all kinds of icebreaking operations in the arctic seas on coastal routes and shore ice belt routes in high latitudes all the year round and capable of forcing the way in compact ice field over 2,0 m thick. The total shaft power is 47807 kW and over).	<b>PC6</b> Distinguishing mark for IACS polar class ships intended for summer/autumn operation in medium first-year ice which may include old ice inclusions.
<b>LL2</b>	Icebreaker category mark (intended for all kinds of icebreaking operations in the arctic seas during the summer period and for operation on coastal routes during the winter period and capable of forcing the way in compact ice field less than 2,0 m thick. The total shaft power is 22065-47807 kW).	<b>PC7</b> Distinguishing mark for IACS polar class ships intended for summer/autumn operation in thin first-year ice which may include old ice inclusions.
<b>LL3</b>	Icebreaker category mark (intended for all kinds of icebreaking operations in the non-arctic freezing seas, in shallow waters and mouths of rivers flowing into the arctic seas during the winter period without assistance as well as for operation on coastal routes in the arctic seas under convoy of icebreakers of higher category all the year round, and capable of forcing the way in compact ice field up to 1,5 m thick. The total shaft power is 11032-22065 kW).	<b>①</b> Subdivision distinguishing mark (one compartment flooded). <b>②</b> Subdivision distinguishing mark (two compartments flooded). <b>③</b> Subdivision distinguishing mark (three compartments flooded).
<b>LL4</b>	Icebreaker category mark (intended for all kinds of icebreaking operations in harbour and roadstead water areas without assistance all the year round as well as for operations in the non-arctic freezing seas under convoy of icebreakers of higher category during the winter period, and capable of forcing the way in compact ice field up to 1,0 m thick. The total shaft power is under 11032 kW).	<b>R1</b> Distinguishing mark for restricted area of navigation (navigation in sea areas at seas in a seaway with wave height with 3 per cent probability of exceeding 8,5 m and with proceeding not more than 200 miles away from the place of refuge and with an allowable distance between the places of refuge not more than 400 miles).
<b>Icebreaker6</b>	Icebreaker category mark (intended for icebreaking operations in harbour and roadstead water areas as well as in the non-arctic freezing seas with ice up to 1,5 m thick, and capable of forcing the way continuously running in compact ice field up to 1,0 m thick).	<b>R2</b> Distinguishing mark for restricted area of navigation (navigation in sea areas at seas in seaway with wave height with 3 per cent probability of exceeding 7,0 m and with proceeding not more than 100 miles away from the place of refuge and with an allowable distance between the places of refuge not more than 200 miles).
<b>Icebreaker7</b>	Icebreaker category mark (intended for icebreaking operations: on coastal routes of the arctic seas in winter and spring with ice up to 2,0 m thick and 2,5 m thick in summer and autumn; in the non-arctic freezing seas and mouths of rivers flowing into the arctic seas with ice up to 2,0 m thick, and capable of forcing the way continuously running in compact ice field up to 1,5 m thick. The total shaft power is not less than 11 mW).	<b>R2-RSN</b> Distinguishing mark for restricted area of navigation (river-sea navigation in a seaway with wave height with 3 per cent probability of exceeding 6,0 m and with proceeding from the place of refuge: - in open seas up to 50 miles and with an allowable distance between the places of refuge not more than 100 miles; - in closed seas up to 100 miles and with an allowable distance between the places of refuge not more than 200 miles).
<b>Icebreaker8</b>	Icebreaker category mark (intended for icebreaking operations: on coastal routes of the arctic seas in winter and spring with ice up to 3,0 m thick and in summer and autumn with no restrictions, and capable of forcing the way continuously running in compact ice field up to 2,0 m thick. The total shaft power is not less than 22 mW).	<b>R2-RSN (4,5)</b> Distinguishing mark for restricted area of navigation (river-sea navigation in a seaway with wave height with 3 per cent probability of exceeding 4,5 m and with proceeding from the place of refuge: - in open seas up to 50 miles and with an allowable distance between the places of refuge not more than 100 miles; - in closed seas up to 100 miles and with an allowable distance between the places of refuge not more than 200 miles).
		<b>R3</b> Distinguishing mark for restricted area of navigation (port, roadstead and coastal navigation within limits established by Russian Maritime Register of Shipping in each case).
		<b>R3-RSN</b> Distinguishing mark for restricted area of navigation (river-sea navigation at seas in a seaway with wave height with 3 per cent probability of exceeding 3,5 m with due regard for particular restrictions on the area and conditions of navigation resulting from the wind and wave conditions of the basins with determination of a maximum allowable distance from the place of refuge which in no case should be more than 50 miles).
		<b>Berth-connected ship</b> Distinguishing mark for restricted area of navigation for berth-connected ships.
		<b>A, A1, A2, B, C, C1, C2, C3</b> - Design category mark for pleasure crafts
		<b>AUT</b> Distinguishing automation mark for pleasure crafts
		<b>AUT1</b> Distinguishing automation mark (automation extent of the machinery installation, except for passenger ships and special purpose ships, carrying more than 200 special personnel on board, is sufficient for operation of the machinery installation with unattended machinery spaces and main machinery control room as well).

<b>AUT2</b>	Distinguishing automation mark (automation extent of the machinery installation is sufficient for operation of the machinery installation by one operator from the main machinery control room with unattended machinery spaces).	
<b>AUT3</b>	Distinguishing automation mark (automation extent of the machinery installation with main machinery power output up to 2250 kW is sufficient for operation of the machinery installation with unattended machinery spaces and main machinery control room).	
<b>AUT1-ICS, AUT2-ICS, AUT3-ICS</b>	Distinguishing automation marks denoting that automation is effected by using integrated computer systems for control and monitoring.	
<b>AUT1-C, AUT2-C, AUT3-C</b>	Distinguishing automation marks denoting that automation is effected by using computers or program logical controllers (PLC).	
<b>AUTstab</b>	Automatic stabilization mark of the high-speed craft (the craft is equipped with the system providing the automatic or semi-automatic stabilization in space and the craft is unable to move under service conditions without this system).	
<b>DYNPOS-1</b>	Distinguishing mark for ships fitted with Class 1 dynamic positioning system (dynamic positioning system with minimum redundancy of its sub-systems. Loss of position can occur upon single failure in the system, i.e. a failure in any active or passive component).	
<b>DYNPOS-2</b>	Distinguishing mark for ships fitted with Class 2 dynamic positioning system (dynamic positioning system having such redundancy of its sub-systems that the position keeping ability of the ship is maintained without disruption upon single failure in any active component of the system, while it is considered that failure in any passive component is precluded owing to provision of appropriate protection).	
<b>DYNPOS-3</b>	Distinguishing mark for ships fitted with Class 3 dynamic positioning system (dynamic positioning system having such redundancy of its sub-systems that the position keeping ability of the ship is maintained without disruption in the following cases: - single failure in any active and passive component, or - failure in any active and passive components located in any one of the watertight compartments, due to flooding, or - failure in active and passive components located within any of the fire zones, due to fire).	
<b>ECO</b>	Distinguishing mark in the class notation, which identifies the basic requirements for controlling and limiting operational emissions and discharges.	
<b>ECO-S</b>	Distinguishing mark in the class notation, which identifies the basic requirements for controlling and limiting operational emissions and discharges.	
<b>(ESP)</b>	Distinguishing mark of enhanced survey program	
<b>OMBO</b>	Distinguishing mark of one man bridge operated ship.	
<b>FF1</b>	Distinguishing mark for ships carrying equipment for fire fighting aboard other ships (the ship carries supplementary systems, equipment and outfit for fire fighting aboard other ships, offshore drilling units, floating and shore structures and is in full compliance with the relevant requirements of the Rules in respect to these appliances proceeding from the degree of the ship's equipment with these appliances which is determined on the basis of the list of fire fighting equipment and systems prescribed by the Rules).	
<b>FF1WS</b>	Distinguishing mark for ships carrying equipment for fire fighting aboard other ships (the ship carries supplementary systems, equipment and outfit for fire fighting aboard other ships, offshore drilling units, floating and shore structures and is in full compliance with the relevant requirements of the Rules in respect to these appliances proceeding from the degree of the ship's equipment with these appliances which is determined on the basis of the list of fire fighting equipment and systems prescribed by the Rules).	
<b>FF2</b>	Distinguishing mark for ships carrying equipment for fire fighting aboard other ships (the ship carries supplementary systems, equipment and outfit for fire fighting aboard other ships, offshore drilling units, floating and shore structures and is in full compliance with the relevant requirements of the Rules in respect to these appliances proceeding from the degree of the ship's equipment with these appliances which is determined on the basis of the list of fire fighting equipment and systems prescribed by the Rules).	
<b>FF2WS</b>	Distinguishing mark for ships carrying equipment for fire fighting aboard other ships (the ship carries supplementary systems,	equipment and outfit for fire fighting aboard other ships, offshore drilling units, floating and shore structures and is in full compliance with the relevant requirements of the Rules in respect to these appliances proceeding from the degree of the ship's equipment with these appliances which is determined on the basis of the list of fire fighting equipment and systems prescribed by the Rules).
		<b>FF3WS</b>
		Distinguishing mark for ships carrying equipment for fire fighting aboard other ships (the ship carries supplementary systems, equipment and outfit for fire fighting aboard other ships, offshore drilling units, floating and shore structures and is in full compliance with the relevant requirements of the Rules in respect to these appliances proceeding from the degree of the ship's equipment with these appliances which is determined on the basis of the list of fire fighting equipment and systems prescribed by the Rules).
		<b>REF</b>
		Distinguishing mark for ships intended for carriage of refrigerated cargo in the specially equipped cargo spaces and/or in the insulated containers and has the refrigerating plant classed by Russian Maritime Register of Shipping.
		<b>ANTI-ICE</b>
		Distinguishing mark for ships the design and equipment of which provide effective icing protection.
		<b>BLS</b>
		Distinguishing mark for ships equipped with the bow loading system but not equipped with the mooring arrangement ensuring operation with single point mooring.
		<b>BLS-SPM</b>
		Distinguishing mark for ships equipped with the bow loading system and the mooring arrangement ensuring operation with single point mooring.
		<b>SPM</b>
		Distinguishing mark for ships not equipped with the bow loading system the mooring arrangement of which ensures operation with single point mooring.
		<b>BWM, BWM (E-S), BWM (E-F), BWM (E-D), BWM (E-SF), BWM (E-SD), BWM (E-FD), BWM (E-SFD)</b>
		Distinguishing marks for ships performing ballast water management through ballast water exchange at sea and carrying Ballast Water Management Plan approved by Russian Maritime Register of Shipping. Letters in brackets indicate the ballast water management method: <b>E</b> means that ballast water management is performed through ballast water exchange at sea; <b>S</b> means that sequential method is used; <b>F</b> means that flow-through method is used; <b>D</b> means that dilution method is used; <b>SF, SD, FD</b> and <b>SFD</b> mean that combined ballast water exchange method is used being a combination of the above methods.
		<b>CCO</b>
		Distinguishing mark for ships fitted with a centralized cargo control system.
		<b>COW</b>
		Distinguishing mark for ships fitted with a crude oil washing system.
		<b>CSR</b>
		Distinguishing mark for oil tankers fully complying with the requirements of Part XVIII "Common Structural Rules for Double Hull Oil Tankers" and for bulk carriers fully complying with the requirements of Part XIX "Common Structural Rules for Bulk Carriers" of Rules for the Classification and Construction of Sea-Going Ships to be mandatory added after the descriptive notation.
		<b>EPP</b>
		Distinguishing mark for ships fitted with the main electric propulsion plant.
		<b>HELIDECK</b>
		Distinguishing mark for ships fitted with a helideck.
		<b>HELIDECK-F</b>
		Distinguishing mark for ships fitted with helicopter refueling facilities.
		<b>HELIDECK-H</b>
		Distinguishing mark for ships fitted with hangar facilities.
		<b>HSC</b>
		High-speed craft
		<b>IGS-IG</b>
		Distinguishing mark for ships fitted with an inert gas system if a system uses an oil-burning inert gas generator as the inert gas source.
		<b>IGS-NG</b>
		Distinguishing mark for ships fitted with an inert gas system if a system uses a nitrogen generator as the inert gas source.
		<b>IGS-Pad</b>
		Distinguishing mark for ships fitted with an inert gas system if an inert gas system is only intended for forming an insulating pad in cargo tanks.
		<b>INF1, INF2, INF3</b>
		Distinguishing marks for Class INF1, INF2, INF3 ships intended for carriage of packaged irradiated nuclear fuel, plutonium and high-level radioactive wastes (INF cargo).
		<b>LI</b>
		Distinguishing mark for ships fitted with a loading instrument.
		<b>MHS</b>
		Multi-hull craft
		<b>MS</b>
		Distinguishing mark for ships fitted with a manned submersible.
		<b>O</b>
		Distinguishing mark for day time navigation restriction; navigation only in the daylight may be allowed.

<b>POSIMOOR</b>	Distinguishing mark for ships fitted with a position mooring system ensuring the ship's position keeping by means of tensile anchor lines.	tanker type 2 preventive measures to preclude escape of such products.
<b>POSIMOOR-TA</b>	Distinguishing mark for ships fitted with a position mooring system ensuring the ship's position keeping by means of tensile anchor lines with the use of the ship's main propulsion plant and thrusters.	chemical Ship intended to transport products of sufficient hazard to require
<b>SDS&lt;12</b>	Distinguishing mark for ships fitted with a diving system permanently installed on the ship for ships fitted with a diving system designed for diving operations at depths less than 12 m.	tanker type 3 moderate degree of containment to increase survival capability in a damaged condition.
<b>SDS &lt; 60</b>	Distinguishing mark for ships fitted with a diving system permanently installed on the ship for ships fitted with a diving system designed for diving operations at depths less than 60 m.	
<b>SDS ≥ 60</b>	Distinguishing mark for ships fitted with a diving system permanently installed on the ship for ships fitted with a diving system designed for diving operations at depths of 60 m and over.	<b>Ref.class (Class notation of the refrigerating plant)</b>
<b>VCS</b>	Distinguishing mark for ships fitted with a cargo vapour discharge system.	Class notation of the refrigerating plant denoting that the refrigerating plant fully or to a degree considered adequate by Russian Maritime Register of Shipping complies with those requirements of Russian Maritime Register of Shipping Rules which apply to it and that the refrigerating plant is under the Russian Maritime Register of Shipping supervision specified by the Rules in respect of its technical condition during the specified period with performing mandatory surveys prescribed by the Rules for this period. The validity of class of the refrigerating plant is certified by the valid Classification Certificate of the Refrigerating Plant.
<b>WINTERIZATION(DAT)</b>	Distinguishing mark for ship equipment to ensure long-term operation at low temperatures. Design ambient temperature is indicated in brackets.	The following symbols and distinguishing marks are used in the class notation.
<b>T0</b>	Distinguishing mark for seasonal navigation restriction for craft built, equipped and outfitted for navigation in summer in the winter seasonal zone or area; navigation in zones denoted T1 and T2 is also possible;	<b>REF®</b> Character of classification assigned to the refrigerating plant built in accordance with Rules and under the supervision of Russian Maritime Register of Shipping.
<b>T1</b>	Distinguishing mark for seasonal navigation restriction for craft built, equipped and outfitted to be capable of year-round navigating in summer zone; navigation in zone denoted T2 is also possible	<b>REF★</b> Character of classification assigned to the refrigerating plant built in accordance with Rules and under the supervision of a classification body recognized by Russian Maritime Register of Shipping and afterwards the plant was classed by Russian Maritime Register of Shipping.
<b>T2</b>	Distinguishing mark for seasonal navigation restriction for craft built, equipped and outfitted for navigation in summer period in the summer zone;	<b>REF★</b> Character of classification assigned to the refrigerating plant built in accordance with the Rules and under the supervision of an IACS Member classification society but to which, due to incomplete compliance with the Rules, the symbol X★ cannot be assigned during the process of transfer of class to Russian Maritime Register of Shipping.
<b>T3</b>	for craft built, equipped and outfitted for yearround navigation in tropical zone and tropical seasonal area; navigation in zone denoted T2 is also possible.	<b>(REF)★</b> Character of classification assigned to the refrigerating plant built without the supervision of a classification body recognized by Russian Maritime Register of Shipping or any other classification body and afterwards the plant was classed by Russian Maritime Register of Shipping.
⊗	Distinguishing mark of the nuclear ship (the ship is fitted with a nuclear propulsion plant).	<b>CA</b> Distinguishing mark denoting that in addition to the refrigerating plant the ship is equipped with the system regulating the composition of the gas environment in the refrigerated cargo spaces and/or insulated containers.
⚠	Distinguishing mark of the nuclear support vessel providing the whole complex of operational support or individual types thereof of the nuclear ships.	<b>CONTAINERS</b> Distinguishing mark denoting that the refrigerating plant is intended for the cooling of cargo carried in the insulated containers.
<b>bulk carrier BC-A (ESP)</b>	Ship, 150 m or over in length, which is intended to carry bulk cargoes with a density of 1 t/m <sup>3</sup> and above, with some of her holds remaining empty at maximum draught.	<b>LG</b> Distinguishing mark denoting that the refrigerating plant is intended to maintain the required conditions for the carriage of the liquefied gas in bulk.
<b>bulk carrier BC-B (ESP)</b>	Ship, 150 m or over in length, which is intended to carry bulk cargoes with a density of 1 t/m <sup>3</sup> and above, with all of her holds loaded.	<b>QUICK FREEZING</b> Distinguishing mark denoting the capability of refrigerating plant of the factory ship to cool and freeze the sea products.
<b>bulk carrier BC-C (ESP)</b>	Ship, 150 m or over in length, which is intended to carry bulk cargoes with a density below 1 t/m <sup>3</sup> .	<b>PRECOOLING</b> Distinguishing mark of the refrigerating plant capability to refrigerate non-precooled sea products (the cooling capacity of the refrigerating plant is sufficient for refrigeration of a non-precooled cargo on board ship during a period of time that provides preservation of that cargo).
<b>bulk carrier BC-A (ESP)(no MP)</b>	Ship, 150 m or over in length, which is intended to carry bulk cargoes with a density of 1 t/m <sup>3</sup> and above, with some of her holds remaining empty at maximum draught. The ship is not initially designed for loading or unloading in several ports.	<b>Refrig.temperature (Refrigerating temperature)</b>
<b>bulk carrier BC-B (ESP)(no MP)</b>	Ship, 150 m or over in length, which is intended to carry bulk cargoes with a density of 1 t/m <sup>3</sup> and above, with all of her holds loaded. The ship is not initially designed for loading or unloading in several ports.	Specified refrigerating temperature of the cargo spaces and/or insulated containers in degrees Celsius.
<b>bulk carrier BC-C (ESP)(no MP)</b>	Ship, 150 m or over in length, which is intended to carry bulk cargoes with a density below 1 t/m <sup>3</sup> . The ship is not initially designed for loading or unloading in several ports.	
<b>gas carrier type 1G</b>	Ship intended to transport products which require maximum preventive measures to preclude escape of such products.	<b>Refrigerant</b>
<b>gas carrier type 2G</b>	Ship intended to transport products which require significant preventive measures to preclude escape of such products.	<b>GC</b> Gas carried
<b>gas carrier type 2PG</b>	Ship with a length 150 m and below intended to transport products which require significant preventive measures to preclude escape of such products, and where the products are transported in independent type C tanks designed for 700 kPa MARVS and above and working temperature in tanks 55 °C and above.	<b>R12</b> Freon 12
<b>gas carrier type 3G</b>	Ship intended to transport products which require moderate preventive measures to preclude escape of such products.	<b>R22</b> Freon 22
<b>chemical</b>	Ship intended to transport products which require maximum	<b>R22+R115</b> Azeotropic mixture
<b>tanker type 1</b>	preventive measures to preclude escape of such products.	<b>R502</b> Azeotropic mixture
<b>chemical</b>	Ship intended to transport products which require significant	<b>R717</b> Ammonia

DPRR	HF direct-printing radiotelegraph receiver
DRTM	MF radio installation with digital selective calling
DRTMH	MF/HF radio installation with digital selective calling
DRTV	VHF radiotelephone station with digital selective calling
DWR	Digital selective calling receiver
ECDIS	Electronic chart display and navigational system
EGCR	Enhanced group calling receiver
EPIRB	Satellite emergency position-indicating radio beacon for Global Maritime Distress and Safety System (GMDSS)
EPIRBV	VHF emergency position-indicating radio beacon with digital selective calling
ESD	Echo sounder
GC	Gyrocompass
GSES	GMDSS ship earth station
LOG	Log (any type)
LRIT	Equipment of long-range identification and tracking of ships
MC	Magnetic compass
NAV	NAVTEX receiver
NVE	Night vision equipment
PAS	Public address system
RDR	Radar
RNSR	Radionavigation system receiver
RTG	Radiotelegraph
RTGPH	Radiotelegraph-telephone
RTPH	Radiotelephone
RTI	Rate of turn indicator
RTU	UHF radiotelephone station
RTV	VHF radiotelephone station
SART	Radar transponder
SCS	Satellite communication system
SCRT	Radio station for survival craft
SRS	Sound reception system
SSAS	Ship security alert system
S-VDR	Simplified voyage data recorder
THD	Transmitting heading device
TWRT	Two-way radiotelephone apparatus
VDR	Voyage data recorder
(GMDSS sea area A1)	The area within the radiotelephone coverage of at least one VHF coast station in which continuous digital selective calling (DSC) is available
(GMDSS sea area A2)	The area, excluding GMDSS sea area A1, within the radiotelephone coverage of at least one MF coast station in which continuous digital selective calling (DSC) is available
(GMDSS sea area A3)	The area, excluding GMDSS sea areas A1 and A2, within the radiotelephone coverage of an INMARSAT geostationary satellites in which continuous alerting is available
(GMDSS sea area A4)	The area, excluding GMDSS sea areas A1, A2 and A3

#### Column 4. Hull/Cargo facilities

##### Date and place of build

Year, month and country of build of the ship. Date of build is the date at which the new construction survey process is completed. In case of substantial delay between completion of construction survey process and the ship commencing active service, the date of commissioning is shown in parentheses.

##### Hull No.

The shipbuilder's number.

##### Ship's type

The description of the ship printed in bold type is the basic type of the ship. The information shown under the basic type in light type indicate the additional features (subtypes) of the ship based on the known functions thereof.  
Ship's type in brackets refers to the class notation shown in Column 3.

##### Decks

dk Decks

##### Bulkheads

bh Bulkheads

#### Passengers

Number of berthed and/or unberthed passengers.

b Berthed  
unb Unberthed

#### Special personnel

Number of special personnel (persons who are not passengers or members of the crew or children of under one year of age and who are carried on board in connection with the special purpose of the ship or because of special work being carried out aboard the ship).

sp Special personnel

#### Holds (Dry cargo holds)

Number of holds for general cargo and the capacity of one hold in cubic meters. For barge carriers — number of barges and the loading capacity of one barge in tons.

h Dry cargo holds

#### Refrigerated cargo spaces

Total number and total capacity in cubic meters.

rcs Refrigerated holds

#### Tanks

Total number and total capacity in cubic meters.

tk Oil tanks

#### Hatches (Cargo hatches)

Number and dimensions of upper deck cargo hatches of dry cargo and refrigerated holds in meters and fractions thereof. For ro-ro ships — number and dimensions of the entrance gates in meters and fractions thereof. For barge carriers — number of hatches and dimensions of one hatch of one barge in meters and fractions thereof.

ch Cargo hatches  
r Insulated (cargo hatches)

#### Derricks and cranes

Number and lifting capacity of derricks and cranes intended solely for cargo spaces, in tons and fractions thereof.

c Crane  
d Derrick

#### Containers

Number of containers in TEU irrespective whether they are carried in holds and/or deck.

R Insulated (containers)  
TEU Twenty-foot equivalent unit

#### Column 5. Machinery

##### Propulsion

Type

##### Main engine date of build

Year of build of main engine.

##### Main engine place of build

Country of build of main engine.

##### Main engine model No. (Designation of main engine)

The manufacturer's model designation.

##### Main engine number, power (Number and power output of main engines)

Number of engines of the identical model designation and power output of one engine in kW. For electric propulsion plant — number and power output of the main generators in kW.

**Main boilers number, type, pressure/heating surface  
(Number, type and pressure/heating surface of main boilers)**

CO	Composite
FT	Fire tube
NS	Nuclear steam
WT	Water tube

**Propulsion el.motors number, power  
(Number and power output of propulsion electric motors)**

Power output in kW is shown for one propulsion electric motor.

pem Main propulsion electric motor

**Generators number, power (Number and power output of generators)**

Power output in kW is shown for one generator of ship's generating plant.

gen Electric power plant generator

**Propeller**

Type of propeller.

APR	Air propeller
bl	Blades
CPP	Controllable pitch propeller
db	Detachable blades
FPP	Fixed pitch propeller
MtA	MMASS type AZIPOD
PWH	Paddle wheels
RTR	Rotor
so	Solid propeller
SPU	Swinging propeller unit
VSP	Voith-Schneider propeller
WJP	Water-jet propeller

**Column 6. Capacities**

**FO bunkers (Fuel oil bunkers)**

Maximum capacity of fuel oil bunkers in tons.

bo Fuel oil-water ballast tanks with regard to substitution of water ballast by fuel oil

**FO type (Fuel oil type)**

**Water ballast**

ob Fuel oil-water ballast tanks with regard to substitution of fuel oil by water ballast

**Heating coils**

Heating coils in cargo spaces, fuel oil tanks, cleaning water tanks and water ballast tanks.

bhc	Water ballast heating coils
chc	Oil cargo heating coils
fhc	Fuel oil heating coils

**Equipment**

Equipment Number, grade of anchor chain cable and diameter of anchor chain cable in millimeters is recorded.

el	Equipment Number
CAT1	Anchor chain of ordinary strength
CAT2	Anchor chain of high strength
CAT3	Anchor chain of special strength

## ***Shiptype Abbreviations***

The List contains the information on the shipowners and their fleets. The name of the shipowner is shown in the first line in capital letters. The number which is the unique identification code of the shipowner is shown in the same line. The name is followed by the form of property of the shipowner, where applicable, its postal address, telephone number, telefax number, telex number. Where no address is available the town and country of registration are shown.

Each ship is identified by name, identification number, flag, call sign, gross tonnage, deadweight (for passenger ships the passenger capacity is shown, for container ships – total number of containers in TEU), year of build. To provide a quick view of the geographical location the shipowners are shown in alphabetical order of towns within countries at the end of the List.
